Primary Examiner, Art Unit 2625

1. Claims 2-5 are allowed. Claim 2 is independent.
2. The amendment filed July 3, 2008 has overcome the objection of claims 3.
3. The following is an examiner's statement of reasons for allowance:

Claim 2 has been rewritten independent form. Claim 2 was indicated allowable if rewritten in independent form including all of the limitations of the base claim. The reason for allowance given in the previous Office action mailed April 3, 2008 is still valid after the updated search. The reason is repeated below for independent claim 2.

Claim 2 is allowable over the prior art of record because the closest prior art Yamanaka (Japanese publication No. 2000=196839) does not disclose that the transmission capacity limitation confirmation means comprises the claimed four functions, i.e., the function of determining whether a plurality of other data transmission means different from the initially designated data transmission means are set up when it is confirmed that the data volume compressed for transmission exceeds the limited range of transmission capacity set for the data transmission means, the function of determining whether the other data transmission means is capable of transmitting data with larger transmission volume than the initially designated data transmission means, the function of determining whether the data volume compressed for transmission falls within the limited range of transmission capacity set for the other data transmission means when the other data transmission means is capable of transmitting data with large transmission volume than the initially designated data transmission means, and

the function of transmitting the read data to a set designation via the other data transmission means different from the initially designated data transmission means when it is determined that the data volume compressed for transmission falls within the limited range of transmission capacity set for the other data transmission means.

Claims 3-5 depend on claim 2, directly or indirectly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
